Education

2021 – 2026 **National Institute of Applied Science and Technology (INSAT)**
Computer Networks and Telecommunications
First-Year Engineering Student

Professional Experience

2023/05 – present **Co-Founder**
Alashwas [🔗](#)

- Co-developed Alashwas online platform using React and Node.js.
- Developed the "Python for Hackers" course, including practical exercises.
- Created Crypto and OSINT Capture The Flag (CTF) challenges.
- Assisted in setting up server infrastructure and configuration of the platform's website.

Skills

Networking

Routing, Switching, Wireless Networking, Network Security

Programming Languages

Python, Java, C/C++

Web Development

React.js, Node.js, Express.js

Database Management

SQL, PostgreSQL

Activities

Capture The Flag (CTF) Competitions:

- Actively participate in CTF competitions, specializing in cryptography challenges.
- Attained notable achievement, securing top ranks, including a first-place.

Personal Development:

- Regularly engaged in cybersecurity training through platforms such as TryHackMe and TCM Security.
- Securinets Member

Certificates and Courses

- CCNA : Introduction to Networks
- CCNA : Switching, Routing, and Wireless Essentials
- TryHackMe : Jr Penetration Tester Learning Path

Languages

- English, French, Arabic
